Purpose: To encourage participation in competitive gymnastics by providing parents and gymnasts a positive and inexpensive introduction to the sport. We hope this will facilitate the development of larger boys' classes and teams. In addition, it will provide an avenue for growth in gyms that mainly have girl's programs and not all the men's equipment.

We feel that boys in classes can participate comfortably in these competitions and they do not need to do all events. In addition, boy's classes are easier to teach when the boys are working on their routines for the meet. We have found that boys are more enthusiastic and continue in gymnastics longer as a result of meet participation.

We encourage gyms to use this avenue to develop teachers, coaches and judges.
